OFFICIAL

Sir:

In response to the Examiner's final office action dated March 10, 2004 Applicant hereby requests that the statutory period set for reply be extended for one month for the following reason.

The cited reference of US 4,078,378 (Anton) for rejecting claims 1-10 is not correct. The inventor of the patent is Gold Harold. The title of the patent is "Automotive Gas Turbine Fuel Control". The reference is irrelevant to the Applicant's invention.

Should there remain any matters unresolved by this response, the undersigned invites the examiner to telephone the below listed direct dial number in order to expedite prosecution.

Respectfully submitted,
